

Zwillingcraft®

Partner for sports

Sport Marketing / Social Media Marketing

Zwillingcraft®

“Laughing is one of our basics & one of our advantages.”

Founded in 2005, Zwillingcraft is one of Germany’s most experienced Mountain bike teams. The successful team history started with a brave idea.

Zwillingcraft has characterized and shaped the combination of fun and sport into what they call “fun-mountain- sport” and is leading this popular trend in Germany. The team became famous for its many victories. We’ve climbed the highest peaks.

“Laughing and smiling while training or racing is not only a fundamental mindset we share in our team, it is also a weapon we like to use when racing. Even at a pulse rate of 180 bpm, you can thank people for their encouraging shouts with a smile or a simple gesture

Today the crew is composed of experienced riders, young talents and cool alpine athletes. A special focus is the support of young athletes.
